

I would like to see Indiana's telephone privacy law not changed. I was bombarded by phone calls by members of the CBA(Consumer Bankers Association). I would tell them no thank you to their services, and ask them to take my wife and I off their call lists. The calls never stopped even after I asked them to stop, until I signed up my telephone number to the Indiana telephone privacy list. So please do not change Indiana's telephone privacy law.

Mr. William Delaney
